

National Levee Database Interactive Reports Instructions

NLD Point of Contact

DLL-CEERD-NLD-General-Support@usace.army.mil

Select *Advanced Reporting* from the Home Page

The screenshot shows the National Levee Database (NLD) home page. At the top right, it says "National Levee Database". Below that is the "US Army Corps of Engineers" logo and name. A navigation bar contains links for "Home", "Reports", "Maps", "Help", "About NLD", and "Contact Us".

Welcome to the National Levee Database

The National Levee Database (NLD), developed by the U.S. Army Corps of Engineers (USACE), is the focal point for comprehensive information about our nation's levees. Authorized by Congress in 2007, the database contains information to facilitate and link activities, such as flood risk communication, levee system evaluation for the National Flood Insurance Program (NFIP), levee system inspections, flood plain management, and risk assessments. The NLD continues to be a dynamic database with ongoing efforts to add levee data from federal agencies, states, and tribes.

Here is what is available in the NLD:

- Majority of levees located within the USACE Levee Program
- Reports on levees in the NLD located within your state, zip code, or address
- Various federal database resources integrated into NLD such as the National Weather Service
- Feedback link for you to provide comments on the NLD
- Contact Us tab if you need assistance or have questions

▲ Please Note: The NLD currently contains the majority of levees within the USACE program. The NLD does not contain all levees located in the United States.

Maps
Search and view levees using the interactive map

Help
Download user manuals, quick guides and videos on how best to use the NLD

About NLD
View presentations, documents on the rollout of the NLD

Contact Us
Please contact us for assistance with the NLD.

Reports
View searchable reports depicting levee system and segment information

Basic System Reporting
Search for NLD levee data by specified search criteria

Advanced Reporting
Navigate through customized reports

Find Levees Near Me
Zip Code
Distance miles

An arrow points from the "Advanced Reporting" link to a red-bordered callout box containing the note. The "Advanced Reporting" link is also circled in black.

Compute

Computation: - New Computation -

Column Heading: Format Mask:

Computation Expression:

Columns	Keypad	Function
A. FC System ID	() '	ABS
D. Cong. District(s)	7 8 9 -	ADD_MONTHS
F. Division	4 5 6 +	CASE
G. System Name	1 2 3 *	CEIL
T. County(ies)	0 . /	CHR
U. State(s)	space ,	COALESCE

Create a computation using column aliases.
Examples:
1. (B+C)*100
2. INITCAP(B)||', '||INITCAP(C)
3. CASE WHEN A = 10 THEN B + C ELSE B END

Cancel Apply

The *Group By* option allows you to customize your report view by grouping, aggregating and sorting columns
